No

Theme four highlights 'local prosperity' as a priority. Are there additional or alternative objectives you recommend for consideration?

the objectives are so vague as to be motherhood statements

Are there other ways the government could make its actions and progress to meet the proposed objectives more transparent and accessible?

the objectives are only that

Do you have any comment on what this draft Strategy does well?

No, it is awful.

Is there anything you think the draft Strategy does not cover but should, or that it mentions but could be highlighted more?

It's effectively a government puff piece: we will continue to, we will facilitate, we need to . . . It all amounts to 'we have good intentions'. All the objectives are fine. So much management blah blah like this, "Our vision will be achieved through action. We will set ambitious targets". This is no plan at all, just the good intentions to have a good plan.

No mention of climate change.

The numbers are tiny compared to the need now let alone in years time.
